

Temporary & Long-Term Self-Storage from TWR Communications!

In the process of moving? Need to store your items for an upcoming yard sale? Whatever your reason may be....**TWR** has a solution to store your items on a temporary basis without the hassle of any long-term contract!

You may never know when you might need temporary storage. Whether Mother Nature has forced you to move household items temporarily or having your house remodeled...TWR is here to help. With hundreds of storage facilities available in our area today, we understand that people need temporary storage until you can resume your normal lives. At TWR we can accommodate daily, weekly and of course monthly rates.

Unit Size

TWR's Storage Units differ from many units available. When you rent a Self Storage Unit from TWR, you will quickly notice how much space is available in each unit. At a size of **9 feet wide X 15 feet long X 15 high**, you will be able to store quite a lot of your belongings. Each unit has 7 foot X 7 foot overhead doors for easy access. TWR's storage units are nearly double the typical 1,080 cubic feet of space that most other storage places offer with only 8 foot high ceilings!

Each storage unit is equipped with a heat detector, which is monitored by TWR's Central Station twenty-four hours daily, including weekends and all holidays! The area in front of each storage unit is well lit and each facility is dry and may be accessed at any time by our tenants. Customers are even able to supply their own padlock.

Limitations

The storage of motor vehicles is generally not allowed. Contact our office for details as TWR does have other Storage Space available to accommodate cars, motorcycles and even small boats!

Promotion!
